PROGRAM 2 - AREA OF CIRCLE

```
echo -n "Enter the radius of a circle : "
read r

area = $ (echo "scale 2; 3.14 * $r" | bc )

d = $ (echo "scale = 2; 2 * $r" | bc )
circumference = $ (echo "scale = 2; 3.14 * $d" | bc )

echo "Area of circle is $area"
echo "Circumference of circle is $circumference"
```
